Etienne Estrangin

Full-Stack Technical Project Manager

Project Management

Technical lead

in LinkedIn   Github

Initially research scientist I engaged myself in the educational field and worked as a school teacher for about ten years.

Fond of Computer Sciences I then devoted myself to a vocational retraining and now work as a technical project manager in competitive environments.

I am always very enthusiastic in developing new skills and I never loose any opportunity to take on more responsibilities.

45 years old
